## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 2 is rejected under 35 U.S.C. 102(e) as being anticipated by Furukawa et al (P.N. 2005/0094870) as set forth in the previous Office Action mailed out on 12/12/06.
3. Claims 1, and 3-8, contain allowable subject matter over the prior art of record.

### ***Response to Arguments***

4. Applicant's arguments filed 2/27/07 have been fully considered but they are not persuasive.

Regarding the Applicant's argument in that the cited reference of Furukawa et al fails to disclose the claimed feature of setting a frame rate and bit rate of encoding according to the size of the image and predetermined conditions, Examiner disagrees. It is noted that such a claimed feature is met by the cited reference of Furukawa et al. Furukawa et al discloses that encoding parameters are set based of feature amounts of the image data. It is to be noted that the feature amounts of the image data disclosed in Furukawa et al anticipates the image size recited in the claimed invention. Applicant's

attention is directed to claim 1 of Furukawa et al and Figure 1, components 32, 34, and 134 provided thereof.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
